OBJECTIVE

I am a passionate and results-oriented M.Tech candidate specializing in AI/ML and advanced networking. With hands-on experience from industry-integrated projects and a successful apprenticeship at AT&T, I have developed strong research skills and a proven ability to solve complex problems. I am seeking an industry-driven internship and dissertation opportunity to further hone my expertise and make a meaningful impact.

EDUCATION

Master of Technology (M.Tech) in Computer Science and Engineering

Mar Athanasius College of Engineering, Kothamangalam (Autonomous)

September 2024 – Present

- Current CGPA: 8.05
- Focus Areas: Deep Learning, Reinforcement Learning, Computational Intelligence, Advanced Database Management, Advanced Machine Learning, Advanced Computer Networks
- Microprojects:
 - **Advanced Machine Learning:** Evaluated classifiers for network intrusion detection using NSL-KDD and CICIDS-2017 datasets (Random Forest: 96.1% accuracy; F1 score: 0.95)
 - **Computational Intelligence:** Developed a Chaotic Noise-Based Particle Swarm Optimization algorithm that converged in 18 iterations—a 30% improvement over standard PSO
 - **Advanced Data Mining:** Implemented an early prediction system for student performance using SVM, achieving 98.69% classification accuracy.
 - **Advanced Computer Networks:** Simulated an SRv6-based SD-WAN QoS management system, reducing latency by 25%, cutting packet loss by 30%, and increasing throughput by 20%

Bachelor of Technology (B.Tech) in Computer Science and Engineering

APJ Abdul Kalam Technological University, Kerala

August 2018 – August 2022

- CGPA: 7.43
- Projects:
 - **Facial Recognition Attendance System:** Python-based solution with 98% accuracy
 - **Smart Farming Application:** Java application enabling real-time data monitoring

PROFESSIONAL EXPERIENCE

Apprenticeship

AT&T Communications India Pvt. Ltd., Bengaluru

November 2022 – November 2023

- Worked with advanced network technologies: IP, OSPF, BGP, VLAN, STP, QoS
- Assisted Domain 1.0 customers in service activations and performed post-implementation troubleshooting
- Demonstrated effective communication and teamwork while collaborating with engineers and stakeholders

TECHNICAL SKILLS

- **Programming:** Python, Java, C, C++
- **Web Technologies:** HTML, CSS, JavaScript
- **Networking:** BGP, OSPF, VLAN, STP, TCP/IP, QoS, DNS, DHCP (CCNA-level)
- **Cloud & Databases:** Google Cloud Platform (Basics), MySQL, SQLite
- **Tools:** Git, GitHub, Android Studio, VS Code, MS Office, MS Teams

CERTIFICATIONS & WORKSHOPS

- Responsive Web Design (freeCodeCamp.org)
- Google Cybersecurity Certificate (Coursera - Grow With Google)
- Python Full Stack (Pentagon Space)
- IELTS CEFR Level – C1
- Introduction to Internet of Things (NPTEL - Funded by the Ministry of HRD, Govt. of India)
- Architecting with Google Compute Engine (Coursera)
- AI Builders Lab Bootcamp (Google for Developers & Hack2skill)
- Prompt Engineering Workshop (AI Summit by AccelerateX & Youdata.ai)
